ROBERT NEWGENT WRITES REGARDING LIFE IN NAVY

Robert H. Newgent, a justice of the peace of Greencastle when he is at home, but who is again in Uncle Sam's navy, writes to Lucius R. Chapin, a friend of his in Greencastle, from Newport News, that he is enjoying life in this second tour of service he is having, his first having been in the days of the World War. He says:

"It has been swell here until today, and, believe me, the sun today has been bearing down. Have you heard any good fishing stories this summer? I had a chance to fish a little while here, over in Norfolk, but was transferred before I could try my luck. I have been trying to get in an accounting school but you can never tell what you will do and what will happen to you next.

"I have enjoyed every minute of my enlistment but I don't like this place. It's a boom town and they are hanging it on you. I am helping out a ship in commission and I will probably be here some time.

"Sincerely,
Robert H. Newgent,
U. S. S. Suwannee,
Care Supervisor of Ship Building
Newport News, Va.

Kiwanis Club Members Picnic

COUNTRY HOME OF MR. AND MRS. LONGDEN SCENE OF GATHERING

Members of the Greencastle and Brazil Kiwanis clubs held their annual summer picnic at the beautiful country home of Mr. and Mrs. Grafton Longden east of the city Thursday evening.

The weather was perfect for an out-door gathering and the spacious grounds at the Longden home furnished ample space for all who gathered to enjoy the evening.

Prior to the serving of a picnic dinner, a social half-hour was enjoyed and after the dinner an interesting program, under the direction of Prof. Harold T. Ross was given. Gene Akers, president of the club, presided at its opening and introduced a number of distinguished guests, most of whom had held high offices in the ranks of Kiwanians in Indiana.

With Perry M. Rush leading the singing and to the accompaniment of James A. Bittles on accordion, the audience sang America to open the program. Mr. Bittles also played a medley of patriotic airs and was followed by a one act play presented by several summer school students under Mr. Ross. The program closed with Mr. Bittles and Mr. Rush leading in singing "God Bless America."

BAINBRIDGE MAN FIGHTS JAPANESE IN U. S. ARMY AIR CORPS BOMBER

First news of the activity of at least one Putnam county man in the fighting in the southwest Pacific was found in a feature article, written by an American war correspondent, and which appeared in an Indianapolis newspaper yesterday.

The article, dispatched from an advanced operational base in the Australian war zone, told of United States bombers returning from a raid on Rabaul, Japanese invasion stronghold. Among those in charge of one of these big Army Air Corps bombers was Lieut. Cecil C. Metz, well known Bainbridge man. He is a brother of Mrs. Gene Earley and Mrs. Stanley Fisher of Greencastle.

It is no secret that there are several local and Putnam county men in Australia and other battle fronts of World War II, but this is the first definite news of the actual whereabouts of a specified soldier from this community at grips with the enemy.

In the raid mentioned in the article, the American fliers blasted the runway of Vunakananau air field near Rabaul, reducing Jap land-based aid to their forces in the Solomon Islands to a minimum degree.

According to Ray Fisher, Lieut. Metz enlisted in November 1940. He had attended Purdue three years taking a mechanical engineering course. He was graduated in June 1941 from a government flying school in Florida. Word has been received from him at intervals from both Hawaii and Australia.

He is well known in this city and in the north part of the county.

It is believed here that Lieut. Metz has been right in the thick of the fighting in the Solomon Islands this week, where it is believed that American Marines have handed the Japs a serious setback to Australian invasion plans.

Intense Fighting On Soviet Fronts

GERMANS STEP UP RECKLESS EFFORTS TO INVADE NORTH CAUCASUS

MOSCOW, Aug. 14 (UP)—The Red Army is closing a trap on German motorized infantry which pierced Soviet defenses at the Don northwest of Stalingrad, and Russian fliers have broken up an enemy attempt to bolster wavering Nazi lines with airborne troops on the northwest front, officials advised today.

MOSCOW, Aug. 14.—(UP)—The Germans, intensifying their reckless efforts to invest the north Caucasus and take Stalingrad on the Volga river, have driven the Russians back around Krasnodar, near the Black sea, and broken through to the river Don at Kletsakay, northeast of Stalingrad, communiques and dispatches revealed today.

At the same time, powerful Russian diversionary blows at Bryansk, Voronezh and northwest of Moscow, apparently were gaining ground. The noon communique said that 3,000 Germans had been killed in two days on the northwestern front, apparently around Lake Seliger, 215 miles northwest of Moscow.

A German drive down the Rostov-Baku railway to within 140 miles of Grozny's rich oil wells was revealed in last midnight's communique, but the noon communique did not indicate that it had made further progress.

"In the area of Krasnodar, Soviet troops engaged in tense, defensive fighting," the noon communique said.

20 Years Ago IN GREENCASTLE

Cloverdale won from Putnamville, 5 to 3, with Blue and Bullerick the opposing pitchers.

Mr. and Mrs. O. L. Reeves and son left for a ten-day auto trip in northern Indiana.

Paul Cook, Oris Lush and Forest Cook motored to Indianapolis.

Mrs. Nellie Anderson, a teacher in Gary, was here visiting.

Mr. and Mrs. America have not yet found these things hard to buy, but there's not as much as they'd like to have:

AND THIS IS WHY—
Essential utensils and kitchen ware, zippers and slide fasteners. Other essential household articles of metal.

Again we need these metals for waging war.

The aluminum in two coffee pots would provide enough of this material for two incendiary bombs.

MR. ROOSEVELT SENDS MESSAGE TO CHURCHILL

MARKS FIRST ANNIVERSARY OF HISTORIC ATLANTIC CHARTER

PRINCIPLES ARE REAFFIRMED

President Tells British Prime Minister Charter "Will Bring Us To A Happier World"

WASHINGTON, Aug. 14 (UP)—President Roosevelt reaffirmed today in a message to Prime Minister Winston Churchill the principles of the Atlantic charter which, the President said, "will bring us to a happier world."

On the first anniversary of the proclaiming of the charter, Mr. Roosevelt reminded Churchill that as the representatives of two free nations they had subscribed to a "Declaration of principles common to our peoples."

"We based, and continue to base, our hopes for a better future for the world on the realization of these principles," Mr. Roosevelt said.

He recalled that a year ago the nations resisting a "common, Barbaric foe" were units of small groups, fighting for their existence.

"Now these nations and groups of nations in all the continents of the earth have united," the President said. "They have formed a great union of humanity, dedicated to the realization of that common program of purposes and principles set forth in the Atlantic charter, through world wide victory over their common enemies."

"Their faith in life, liberty, independence and religious freedom, and in the preservation of human rights and justice in their own lands as well as in other lands, has been given form and substance and power through a great gathering of peoples now known as the United Nations."

Mr. Roosevelt said that "if the forces of conquest are not successfully resisted and defeated there will be no freedom for any nation."

"When victory comes," he said, "We shall stand shoulder to shoulder in seeking to nourish the great ideals for which we fight. It's a worthwhile battle. It will be so recognized through all the ages, even among the unfortunate peoples who have suffered."

The first anniversary of the charter finds the United States pressing forward under a definite program of war aims and post-war objectives.

Plant Is Taken Over By Navy

ACTION ORDERED IN NEW JERSEY BY PRESIDENT ROOSEVELT

BAYONNE, N. J., Aug. 14.—(UP)—The Navy, under orders from the commander-in-chief, Pres. Roosevelt, seized the General Cable Corporation plant today to end a wildcat strike in defiance of the War Labor Board.

A. Alfred Fink, attorney for the 1,000 strikers, members of the International Brotherhood of Electrical Workers (AFL), said he felt "sure that the men will be glad to work for Uncle Sam."

The prompt action of President Roosevelt forestalled a strike at the Perth Amboy, N. J., plant of General Cable Corporation, which employs 2,700 workers.

Workers who already had voted to strike and twice advanced the deadline, voted 115 to 50 last night "to abide by the War Labor Board's decision."

An officer of the Perth Amboy local said 835 members did not vote, although they attended the meeting and heard AFL officials and Lieut. Commander Kenneth E. Yandell, industrial relations officer of the third naval district, appeal to them not to strike. Union members said Yandell's pleas, as much as the pleas of their officers, influenced them not to walk out.

Pleas had failed in the case of the local strikers. The WLB had asked them to "remember our boys fighting in the Solomon Islands." President William Green of the AFL and Edward Brown, president of the Electrical Workers Union, had besought them in vain to call off their strike.

They voted yesterday—despite notice that the plant would be seized—to continue the strike. Almost the entire output of the General Cable Corporation's plants, wire and cable, goes to the armed forces, principally the navy.

Malta Receives Convoy Supplies

SHIPS GET THROUGH DESPITE FIERCE ATTACKS BY AXIS FORCES

LONDON, Aug. 14 (UP)—The 9,400-ton cruiser Manchester, one of Britain's newest, and the aircraft carrier Eagle have been sunk in a blazing naval-air battle in the central Mediterranean while escorting a large convoy to beleaguered Malta, the Admiralty announced today.

LONDON, Aug. 14.—(UP)—An allied fleet has succeeded in getting an important supply convoy to embattled Malta in one of the most furious aerial and naval battles of the war, naval quarters reported today.

The admiralty was expected, probably today, to issue a formal communique giving the allied side of the battle in which Italy and Germany claimed a major victory.

According to axis broadcasts the battle started Tuesday after axis submarines and airplanes had sighted the convoy proceeding eastward from Gibraltar.

It was said that Italian and German naval units, including submarines, motor torpedo boats, destroyers, fighter planes, dive bombing planes and bombing planes, attacked the convoy until it split and part of it headed for Malta while the remainder withdrew westward toward Gibraltar.

Axis reports said the convoy was intended for Egypt.

Reports here indicated that the convoy actually was on its way to Malta with arms, ammunition, equipment, gasoline and food for the garrison and the population which are under constant aerial attack by axis planes based on Sicily only 60 miles away.

Miss Mary Stewart of Roachdale returned to her home Friday from the Putnam county hospital.

Americans Thought To Have Established Firm Hold On At Least Three Islands

AUCKLAND, N. Z., Aug. 14 (UP)—A week's fierce fighting in the Solomon Islands has brought American successes and the U. S. entries are on the credit side of the battle ledger, it was reported here today.

(A dispatch from Sydney to the London Evening Star said that the first stage of the Solomons battle has ended in an American victory.)

Strict official secrecy continued to obscure the details of the Solomons fighting but it was known here that the initial phases of the battle have gone in favor of the Americans.

Big Auction Will Be Held Tonight

4-H CLUB LIVE STOCK WILL BE PLACED ON BLOCK AT EIGHT O'CLOCK.

A new feature for the annual 4-H club fair which is being held at Robe-Ann park, closing Saturday, will be the big auction sale of 4-H club members live stock scheduled for tonight at eight o'clock.

This feature as decided upon by the County Fair Board at an early meeting, when it was voted to discontinue some other adult features of the fair. Many of the county 4-H club boys and girls have been preparing their stock since early spring for the fair and some of them have a surplus of animals which they are willing to sell and it was this condition that made it possible for the Fair Board to make the sale possible.

Some of the county's finest young livestock will be in the ring for sale at tonight's auction and it is believed that there will be a ready demand for this fine blooded stock. The public is invited to attend this interesting and important feature of the 4-H club fair.

The sale will be conducted by auctioneers, Alton Hurst, Albert Hunter and Joel Dobbs.

GENERAL MACARTHUR'S HEAD-QUARTERS, AUSTRALIA, AUG. 14.—

(UP)—United States marines have captured Kukum, on Guadalcanal Island, most valuable airdrome site in the southern Solomons, it was believed today.

Reports to Gen. Douglas MacArthur's southwest Pacific headquarters indicated that the marines were still driving inland in savage hand to hand fighting, on at least three key islands and that they might already hold two or more useful atolls in the Tulagi-Florida-Guadalcanal area.

The United States and allied fleet and air forces continued fighting a fierce battle on the eighth day of the Solomon Islands offensive, the first big United States offensive operation of the Pacific war.

It was indicated that the fleet was driving off probably inferior enemy surface units and fighting back against a ferocious enemy aerial attack, with its hard-pressed naval planes.

United States south Pacific naval headquarters reported that the first casualties of the Solomon Islands battle had arrived at American base and field hospitals somewhere in the south seas, to be attended by medical units of John Hopkins, Pennsylvania and Maryland universities, and that more were on the way.

Gen. MacArthur's communique No. 123, issued at noon today at headquarters, reported a ferocious attack on a Japanese reinforcement fleet in New Guinea waters, evidently bound for the southern Solomons.

Boeing flying fortresses and medium bombers, believed to be Martin two-motored B-26s, fastest of their class in the world, rivaling that of some fighters, attacked the fleet three times yesterday in force and though the weather interfered with observation of results, it was hoped that a shattering if not fatal blow had been given to the enemy warships and transports steaming toward the battle zone.

The first fleet of MacArthur's planes, flying fortresses, were challenged by six Japanese Zero fighters and shot down two and damaged three. Medium bombers which made

A SOLDIER'S THOUGHTS

By Mrs. Marian Brown Hall, Greencastle, Ind., Route 4.

A soldier's life is a rough one. For he works throughout the day. His thoughts are of the home folks who now are so far away. Once he thinks of girl friends. Then of his mother and dad. The day he left the station. And the experiences since he's had. He is lonesome, but he is happy. When his mind it settles down. For he's put there for a purpose. When he hears the bugle sound. He rises with alertness. And with attention falls in place. He is ordered out to duty. And a smile comes on his face. His life to him means nothing. When the planes begin to fly. The ships are sailing onward. Where the water meets the sky. "Protection" is his motto. For a soldier tried and true. He's fighting for his country. And he's proud of "Old Glory" too.

INTENSE FIGHTING

 "On one sector . . . Soviet troops under pressure of numerically superior forces, fell back to new positions."

One of the most ferocious battles around Krasnodar, 65 miles from the Soviet Black sea fleet's first base at Novorossisk, had been fought over a river crossing (presumably the Kuban river). This might indicate that the river had been forced.

Browning Reunion Held

At Crawfordsville

The 45th annual reunion of the Browning family was held Sunday at Milligan Park, Crawfordsville.

With the usual exchange of greetings and reminiscence on the arrival of members of the family, preparation was being made for a delicious and abundant dinner which every one enjoyed.

A brief business meeting was held in charge of the president, Aileen Browning West. The following officers were elected for the coming year: President, Aileen Browning West; vice president, Robert Quinley; secretary, Virgie Browning; and treasurer, Raymond Herod.

A very entertaining program was rendered following the business meeting. With Mrs. Emma Quinley holding the flag, Betty and Bobby Campbell gave the Pledge of Allegiance to the Flag followed by a reading by Bobby and singing God Bless American. The reading, Our Flag, was given by Betty Campbell with both giving a Mexican dance followed by the singing of The Star Spangled Banner.

If conditions permit the Browning reunion will be held the second Sunday in August at Milligan Park, Crawfordsville, next year.

INDIANA WAS READY WITH ADEQUATE POWER TO RUN ITS WAR PRODUCTION PLANTS

★ Hoosiers expect Indiana industry to do two things: first, produce its share of material necessary to win the war; second, to produce, when the war is won, its share of the goods to maintain our high standard of living. The first effort is occupying practically all of industry's time, now. And a splendid job is being done! All over Indiana the machinery of production is in high gear: parts are being molded by the tens of thousands daily for America's fighting planes; batteries of 1,000-pound drop forges are turning out tons of parts for tanks, guns and trucks; vast arrays of machines are producing projectiles; armor plate is being rolled in endless quantities. These are but a few of the thousands of vital parts that Indiana is forging for victory. Men and women in the factories of big cities and small villages of Indiana are working and sweating to make sure that our production will be "plenty and on time."

BUT HOW about the electric power back of this tremendous production? What makes sure that these machines will keep humming day and night? How can both large and small factories, in both big cities and little villages be sure that that vast driving power of electric current will not fail them? The answer lies in the intricate system of interconnected high-voltage transmission lines that crisscross Indiana, tying in prac-

tically every community in the state, making sure that electric power from vast reservoirs of energy is available "everywhere" and all the time! If the electric power fails from one source, power from a second, third or fourth direction flows instantly to the rescue.

NO LONGER can industry afford to locate in communities served by isolated electric plants. Interconnected power must be available to keep our war production geared "in high." Now, as never before, is the theory of interconnected electric power proving its essential and critical need.

IT TOOK A LOT of money and foresight to knit together this vast system of giant turbines and generators, high pressure boilers and miles of power lines. But it is built and is supplying the violent demands thrust upon it by the ravenous appetite of war. Every Hoosier is as much responsible for this interconnected electric system coming into being as the men who actually planned and built it. If it weren't for the faith and co-operation of almost every citizen of the State, Indiana would be dotted with tiny isolated electric plants incapable of co-operative exchanges of electric power in emergencies.

You should feel as proud as we, that such an interconnected power system is in operation at this critical time.
